Other Applications Of Gellan Gum

Pet Food

The gellan gum is widely used in tinned meat segment and gel pet food. We provide high quality gel and good flavor releasing character.

Medicine

Application: Eye drops, soft and hard capsules, microcapsules and other sugarcoat medicine

Capsule

Capsule gelatin is welcomed in the world. Mixing with other gums, the gellan gum can produce high quality capsules.

Daily Chemicals

Toothpaste, perfume, sunscreen, shampoo and others

Antworks

AntWorks is based on a 2003 NASA Space Shuttle experiment: to study animal life in space and test how ants successfully tunnel in microgravity. Besides providing a safe ecologically-correct habitat, the gel also provides the ants' food. Antworks is filled with a highly nutritious non-toxic gel. You need to open the lid for a moment once a month to aerate the interior.

Gellan gum can be used in ant works manufacturing. The advantage of high transmittance and waterproof of gellan gum can produce highest quality antworks.

Air fresher

Gellan gum is now widely used as air fresher in car. The advantage of high transmittance of gellan gum can produce highest quality air fresher.

Other Industrials

Sensitive Film, Slow Releasing Fertilizer, Textile Additive, Papermaking.
